RE: PROPOSED AMENDMENT TO ADM FILE NO. 2003-04

Dear Justices:

To adopt the above mentioned proposals would not only be unfair and unjust to the Michigan incarcerated, but the adoption of these proposed amendments would create a court system in which prosecutors would have an overwhelming power over defendants and their attorneys. Your name is indicative of justice being meted out fairly. The passing of these proposals would definitely trump injustice over justice. Important evidence would not be introduced and facts that could render a defendant's innocence would not be allowed. Do we now have two legal systems, one for the incarcerated and one for the non-incarcerated? Surely these proposed amendments would weigh the heaviest on the incarcerated.

To adopt these amendments would change our legal system from "Innocent until proven guilty" to "Guilty until proven innocent". To change or amend the laws would create a failure and breakdown of our legal system as we know it today. This would be a total deviation from what our Constitution stands for.

Sincerely,

Ronald T. Waldon

RE: PROPOSED AMENDMENT TO ADM FILE NO. 2003-04

Dear Justices:

To adopt the above mentioned proposals would not only be unfair and unjust to the Michigan incarcerated, but the adoption of these proposed amendments would create a court system in which prosecutors would have an overwhelming power over defendants and their attorneys. Your name is indicative of justice being meted out fairly. The passing of these proposals would definitely trump injustice over justice. Important evidence would not be introduced and facts that could render a defendant's innocence would not be allowed. Do we now have two legal systems, one for the incarcerated and one for the non-incarcerated? Surely these proposed amendments would weigh the heaviest on the incarcerated.

To adopt these amendments would change our legal system from "Innocent until proven guilty" to "Guilty until proven innocent". To change or amend the laws would create a failure and breakdown of our legal system as we know it today. This would be a total deviation from what our Constitution stands for.

Sincerely,

Signature

RE: PROPOSED AMENDMENT TO ADM FILE NO. 2003-04

Dear Justices:

To adopt the above mentioned proposals would not only be unfair and unjust to the Michigan incarcerated, but the adoption of these proposed amendments would create a court system in which prosecutors would have an overwhelming power over defendants and their attorneys. Your name is indicative of justice being meted out fairly. The passing of these proposals would definitely trump injustice over justice. Important evidence would not be introduced and facts that could render a defendant's innocence would not be allowed. Do we now have two legal systems, one for the incarcerated and one for the non-incarcerated? Surely these proposed amendments would weigh the heaviest on the incarcerated.

To adopt these amendments would change our legal system from "Innocent until proven guilty" to "Guilty until proven innocent". To change or amend the laws would create a failure and breakdown of our legal system as we know it today. This would be a total deviation from what our Constitution stands for.

Sincerely,

Sandra Brown
